EDUCATION

Princess Sumaya University for Technology   **Amman, Jordan**

B.S. in Software Engineering   *Expected Graduation, June 2026.*

- o **Concentrations:** Software Development

SKILLS

- Proficient in programming languages such as C, C++,JavaScript .
- Proficient in Object-Oriented Programming (OOP) concepts and principles
- Frontend Development with HTML/CSS and JavaScript
- Backend Development with PHP.
- Data structures for efficient problem solving.
- System Analysis and design Fundamentals

PROJECTS

Personal Portfolio

- Developed a visually appealing and responsive personal portfolio website using HTML,JavaScript and CSS Utilized Bootstrap framework to ensure optimal display across various devices and screen sizes
- PHP was used to implement dynamic functionality and user interaction on the website for the personal portfolio. used PHP to manage user input and process form submissions and communicate with the MySQL database for easy data retrieval and storage

Indexing file structures

- Implemented and Optimized efficient search algorithm to enhance search performance for large datasets

Student Registration and Examination System

- Design and implemented a Student Registration and Examination System using C++ with focus on OOP Principles reflecting familiarity with OOP fundamentals
- Implemented data structures and algorithms to efficiently store and retrieve user data and examination data

ACTIVITIES AND LEADERSHIP

ACM Trainee   **Amman, Jordan**

Member   *Oct 2021 –May 2022*

Problem Solving Sessions
